

The main purpose of our QHSE-work is to maintain a safe working environment for our employees, contractors and all our stakeholders. Designated QHSE-strategies therefore states:

ZERO INCIDENTS AND EMISSIONS:

We shall always control risk and use effective measures to prevent injuries and emissions.

INVOLVE AND BE A TEAM PLAYER:

We shall absorb input from our stakeholders in order to find satisfying and safe solutions related to all HSMK aspects.

TRUSTY SECURITY AND EMERGENCY PREPAREDNESS:

Our stakeholders shall always feel safe at our locations. Assessments planning and exercises will protect personnel and infrastructure against any threats.

QUALITY AND IMPROVEMENTS LIFTING OUR CUSTOMERS:

We will constantly improve our process through adapted QA systems and with active use of LEAN improvements. Our continuous improvements will give our customers advantages.

To our strategy, we have connected dedicated employees, objectives and plans. We also have certified systems to support us in our decision making. The UN's Sustainable Development Goals is indicative of our decisions, and our core values tell us who we are. In total, this gives us safe operations and quality in our deliveries.
